

Honest

WE BRING ROCKET FAST INTERNET

OTTO is a unique, community-forward rental building in an unbeatable location in the heart of Greenpoint, Brooklyn with jaw-dropping 360-degree views of New York City.

Year built
2018

of units
197

With more and more residents dropping expensive cable packages and frustrated with the slow internet speeds, Otto was looking for a **premier internet option** to serve their resident needs. Honest Networks worked with Otto to serve and **provide significant value to the building.**

“**The best experience I’ve had with an internet company.** The install was **seamless, painless** and took less time than I thought. **Customer service over the phone and email was great.** They feel small so I feel seen. These guys are **friendly, easy-going, flexible** and **honest.**”

- Ben P. subscriber

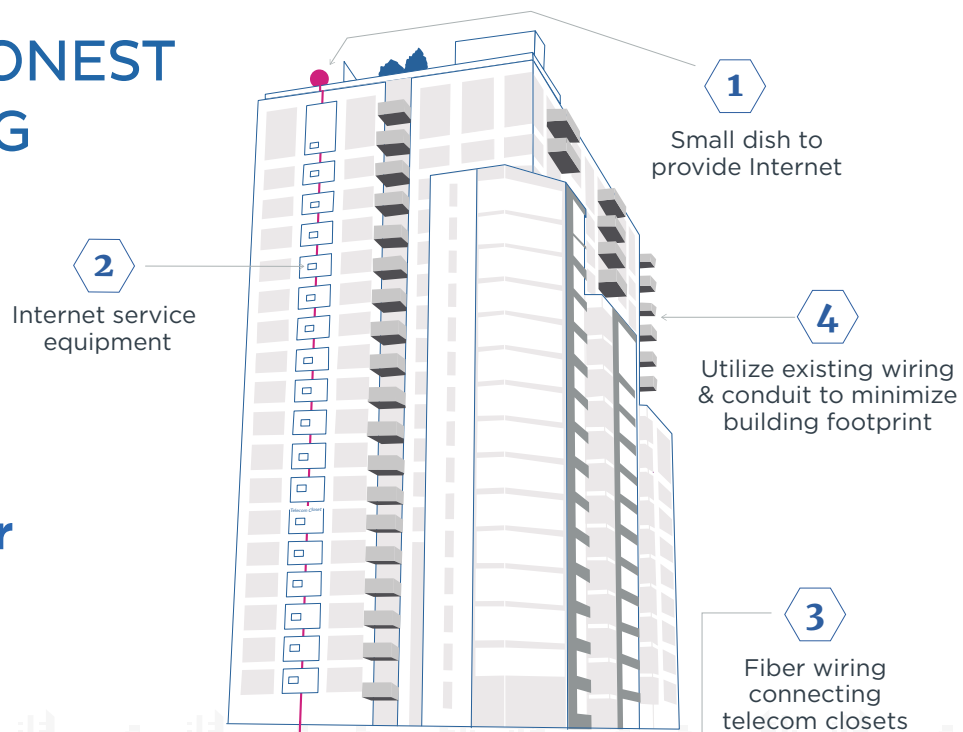

“**Stable, fast, and cheap.** If you’re reading this, there’s probably some chance you’re wondering “is this company real?”. I had the same thought. But, **they’re real, and their service is excellent.**”

My internet has been absurdly fast, cheaper than Verizon, and was **reliable** throughout our most recent snowstorm. **Installation was also prompt and polite...**”

- Dan P., subscriber
